Constellations at Theatre33

07:30 PM - 08:30 PM PST

Constellations at Theatre33

Event Description

A physicist. A beekeeper. A single meeting that unfolds across infinite timelines.

In this beautifully complex play by award-winning British playwright Nick Payne, one relationship becomes a kaleidoscope of possibilities — shifting with every word, silence, and choice. Constellations is a breathtaking exploration of love, time, free will, and the power of what-ifs.

Praised as “emotionally rich” and “theatre at its best,” this mind-bending romantic drama has won critical acclaim across the globe — and now takes the stage in Bellevue for two special performances.

2 nights only. Come see why this play has moved audiences from London to Broadway — and now, here.

Get tickets here.

Every dog parent facing a cancer diagnosis has access to the support, resources, and care they need.

We believe that no one should face the challenges of canine cancer alone. By fostering an inclusive community, we empower families in Washington to navigate their journey with dignity and hope, ensuring that every dog receives the care they deserve and every family has the tools they need. Together, we are committed to making a lasting difference in the lives of dogs and their families.
