A bit about Cathedral in their own words:

We started Cathedral with one goal in mind — to build something that's sole purpose of existing was to make this world of ours a more just and beautiful place. We donate all profits to charity — so you can throw an event while supporting a cause you care about...We don't have investors. We have Founders. Individuals who believe that helping others is a part of their responsibility and privilege as members of the human race. For centuries, cathedrals have been a work of the people. Our Cathedral is a work of the people, too. Cathedral is built by individuals who contribute in ways they can by simply being who they are.

Some contribute financially, others with their skills. Some both. Our Founders are window washers, teachers, architects, HR specialists, realtors, contractors, financial analysts, lawyers, graphic designers, web developers, writers, audio technicians, videographers, personal trainers, firemen, artists, business owners, and more. There's a lie that we sometimes tell ourselves that we don't have the ability to make a difference. But the world doesn't need you to show off, it needs you to show up. We believe that the world doesn't need your perfection, it needs your participation."
